

Dear Parents,

You may have heard your children talk about Osmo when you asked about their day. We'd like to take a minute to share with you this new and exciting tool that we've adopted for our classroom.

What is Osmo?

Osmo is a unique device used in conjunction with the iPad that lets our students interact with real-world objects like puzzles, letters, and numbers instead of just a touch screen. We use Osmo for engaging vocabulary practice, reviewing curriculum content, and augmenting traditional learning with innovative technology.

Playful Learning

Teachers are using the award-winning Osmo in over 15,000 schools worldwide. Osmo encourages active hands-on learning versus passive screen time. You can learn more about how it works and how parents and teachers are utilizing this new tool at www.playosmo.com/parents.

Teachers love Osmo's versatility in the classroom and they way it fosters student learning in key areas like Social-Emotional, Creative Thinking, STEM, and Common Core. Osmo is much more than just a game. It is a community, a resource, and a whole new way to teach.

We welcome you to the exciting world of Osmo and would love to hear from you.

All our best,
The Osmo Team
